Summary

Informatics graduate with experience building mobile and web applications using Flutter, React, Flask, and MySQL. Enjoy solving problems through code and creating applications that people actually want to use. Seeking a software engineering internship to learn from experienced teams, contribute to real projects, and grow as a developer. Thrive in collaborative environments and always eager to take on new challenges.

Education

Universitas Teknologi Yogyakarta — Sept 2022 – Apr 2026
Bachelor of Informatics — *GPA: 3.61/4.00*

SMK Negeri 1 Kota Bekasi — Aug 2019 – Jul 2022
Computer and Network Engineering

Projects

Scentify - Perfume Recommendation Mobile & Web Application
Flutter, Flask, Python, MySQL, Content-Based Filtering

- Developed "Scentify", a mobile and web-based perfume recommendation application that generates personalized recommendations based on user questionnaire responses.
- Engineered the backend logic using Flask to handle real-time data processing and model inference, ensuring low-latency response for the end-user.
- Designed and managed a MySQL database to store questionnaire data, user preferences, and recommendation results.
- Applied full-stack development principles to integrate user interface, backend logic, and database operations into a functional end to end system.

TypeFast - Fullstack Typing Test Platform
React, Node.js, Express, PostgreSQL, Prisma

- Built a responsive typing test platform with real-time WPM tracking, custom backspace logic, and dynamic UI themes using React and Vite.
- Implemented a secure backend using Node.js, Express, and PostgreSQL to handle JWT authentication and persistent score tracking.
- Designed a global leaderboard system and optimized database queries using Prisma ORM.

Skills

Programming Languages: Python, JavaScript, TypeScript, HTML, CSS, MySQL, PostgreSQL

Frameworks & Libraries: Flutter, React, Flask, Tailwind CSS

Tools: Git, GitHub, Postman, Figma, Visual Studio Code, RapidMiner, XAMPP, Microsoft Office

Languages: Bahasa Indonesia (Native), English (Intermediate)

Certifications

TOEIC (Test of English for International Communication) 2021
Issued by ETS (Educational Testing Service) *Overall Score: 580*

- Demonstrated English proficiency in listening and reading comprehension.

Machine Learning Professional Certification 2024
Issued by Altair RapidMiner

- Covered key machine learning concepts, including classification, regression, scoring, hold-out validation, correlations, feature importance, clustering, and association rules.

Volunteer Experience

Pekan Olahraga UTY 2025 Nov 2024 – Feb 2025
Sponsorship Division *Universitas Teknologi Yogyakarta*

- Secured sponsorship opportunities by approaching and coordinating with potential partners for the university sports event.
- Contributed to sponsorship proposal preparation and event documentation to support funding efforts.
- Assisted event operations, including logistics and participant coordination, in a collaborative committee environment.
